# Discover a new world of possibilities

# 4 wheel drive and functionality combined

**MAX** is the revolutionary new power chair from LEVO. It combines legendary mid wheel maneuverability with the power and safety of full time four wheel drive.

MAX's innovative Swiss design is matched with the award winning Sedeo seating system that adjusts to your every need and desire. This powerful combination delivers the comfort and performance that easily conquers obstacles and opens up a whole new world of mobility opportunities.

Central leg rest

VR2 controls

Sometimes there are tough choices. Should you select a power chair that is small and can go anywhere indoors, or one with the safety and power to take you anywhere you want to go outside? Problem solved! With the LEVO MAX 100 you get the best of both worlds. Indoors, the MAX's innovative mid-wheel drive and suspension system allow you to easily navigate through small spaces. Outdoors, MAX's powerful four wheel drive system will safely take you go places the standard two wheel drive chair just can't go.

## Excellent driving experience

The 4 wheel drive base combined with the best in class seat system provides you with the feeling of driving a comfortable and solid platform. In real life, the overall dimensions are small and give you the opportunity to drive indoors without compromise. Due to the full time four wheel drive, MAX offers excellent curb and ramp climbing. There is always traction, even when the center wheels are off the ground! Outdoor driving gets even more comfortable due to the Multi axle suspension system. While driving, this multi axle suspension system moves vertically, as well as diagonally and therefor intercepts obstacles in any direction. All of

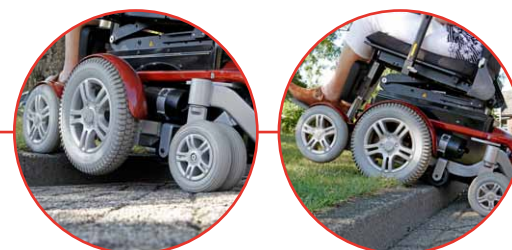

this combined with a proven quality control system and high power 2 or 4 pole motors with speeds up to 10km/h; provide you with the power you need for turning on the spot and driving outdoors in challenging environments.

## Seat system

The MAX 100 comes equipped with the Sedeo Lite seat system. This innovative design delivers exceptional comfort and adjustability in one solution. It combines a highly adjustable frame with a wide choice of support and positioning options. Add the cushions and backrest that you choose to maximize your comfort and you have the solution that works for your situation. With MAX and Sedeo Lite it's easy!

## Individualize MAX to your personal taste

When you choose MAX, we want you to have the opportunity to make your power chair reflect the unique individual you are. Choose your MAX in black or any of the four vibrant colors that come as an option. If you like to drive a MAX with a personally and uniquely chosen color, indulge and choose one of our many custom colors. With the MAX 100, the choice is yours.

Curbs are easy with MAX 100
